

JACK

THE SMART STEAM FOAMER
USED AS AN
INDEPENDENT UNIT

TECHNICAL SPECIFICATIONS | europe

Perfect Moose is the smart steam foamer turning milk-, plant- and mix-based liquids of choice into the smoothest microfoam, hands-free. Thanks to smart technology, it automatically recognizes the type and amount of milk you dosed, creating 24/7 top barista quality microfoam. Perfect Moose Jack is equipped with a boiler at the back, this solitary Moose works completely independently.

Colour options

Mat black | Mat white

Standard accessories

1 x white pitcher 50 cl milk-based | 1 x black pitcher 50 cl mix-based | 1 x green pitcher 50 cl plant-based (all including a RFID tag recipe) | installation kit

Dimensions appliance

W 120 x H 620 x D 350 (mm)
W 4,724 x H 24,409 x D 13,78 (inches)

Dimensions boiler

W 120 x H 620 (598) x D 140 (mm)

Jack's Backpack

W 4,724 x H 24,409 (23,543) x D 5,511 (inches)

Weight appliance

Net 12,7 kg | Gross 16,7 kg (for transport)

Weight boiler

Net 7,3 kg | Gross 8,8 kg (for transport)

Power appliance

40 watts

Power boiler

2400 watts

Power combination appliance + boiler

40 + 2400 = 2440 watts

Electrical power supply

200-230V / 50-60 Hz/1ph

Water drainage

Yes (small amounts of steam condensation)

Water supply

Water supply to be provided

Dimensions Moose Box 1: Appliance

460 x 240 x 710 (mm)

Dimensions Moose Box 2: Jack's Backpack

240 x 240 x 710 (mm)

Water supply

Water connection needed (filter connection necessary)
